This project is implemented with the aid of a grant from the

Marine Resource Governance in the Eastern Caribbean (MarGov Project)

MarGov References

The following are references to key literature that are related to marine resources governance in the Caribbean and the research concepts being applied in the MarGov project. These materials will be key readings and sources of information during the implementation of the project. More specifically the materials will inform the development of the project research framework, research proposals and research theses. This list will be expanded as the project is implemented.
