Message From The Head

The teaching of Economics began in the mid 1960s within the Division of Survey Courses and Social Sciences (later renamed the Division of General Studies and Social Sciences) when the Barbados Campus of the University of the West Indies (UWI) was situated at the Harbour Site. When the Campus moved to its current location at Cave Hill in September 1967, Economics teaching and research continued within the Division until it was abolished in 1972. On August 1, 1972, the Department of Economics was formed within the Faculty of Arts and General Studies. When the Faculty of Social Sciences was established in 1975 at Cave Hill, the Department became a unit within the Faculty.

The Department of Economics is responsible for the teaching of Economics and Quantitative Methods (Mathematical and Statistical) courses within the Faculty of Social Sciences. This Handbook outlines the programmes and courses offered by the Department and is a supplement to the Faculty Handbook.

The Department seeks to provide programmes which meet the needs Barbados and the Eastern Caribbean countries for trained Economists. The teaching Economics in the undergraduate programmes provides students with a firm foundation the principles of economic analysis and their application to Caribbean-type economies (i.e. small, developing economies). Undergraduate degree programmes assume no previous knowledge of Economics, so that the Department admits students with various backgrounds into its degree programmes.

Prizes

Students should feel free to approach members of staff with any problems they are experiencing with their academic work. You should read the notice boards regularly. You should try to attend as many lectures and tutorials as possible. The Head of Department should be consulted if you cannot resolve problems with your lecturers/tutors.

The University is a place for serious work and study. Students should try to manage their time properly, with an 'optimal' balance between work, study and recreation.

I want to welcome all new and returning students and take this opportunity to wish you all the best.

Prizes

1. **Wendell McClean Memorial Prize in Economic Theory.** Awarded to the student who achieves the highest aggregate in Economic Theory in Part II Year I examinations.
2. **Sir Arthur Lewis Memorial Prize.** Awarded to the most outstanding student graduating with a major in Economics.

(Prizes 1 & 2 are book prizes to the value of Bds\$200 each.)
3. **Llewyn Rock Memorial Prize in Economics.** Awarded to the student obtaining the highest aggregate marks in Level II of the B.Sc. Economics programme with at least a B+ average. The value of the prize is Bds\$150.00.
4. **Charles M. Kennedy Prize.** Two cash prizes awarded to students with the highest marks in the BSc. Economics degree in the Final Year examinations in the Faculty across all three Campuses.
