

THE UNIVERSITY OF THE WEST INDIES  
CAVE HILL CAMPUS

# STUDY ABROAD IN... BARBADOS

Make yourself at home with us at the UWI, Cave Hill Campus. We welcome students from all over the world.

Explore the international side of your programme while making new friends, experiencing another culture and another academic environment.

For over sixty years, UWI has given the Caribbean most of its leaders in government, business, education, law, engineering and medicine as well as two Nobel Laureates. Eight serving Prime Ministers are UWI graduates.

The Cave Hill Campus overlooks the island's capital and principal commercial centre and offers a beautiful view of the Caribbean Sea.

While our students are serious about their studies, they know that life extends beyond the classroom and there are a variety of out-of-classroom experiences awaiting your participation. Students have the opportunity to connect through many campus clubs and organizations and who could forget the annual Campus Carnival.

---

## BARBADOS

The island of Barbados is best known for its beautiful white-sand beaches, sparkling waters and refreshing sunshine. Hundreds of thousands of tourists visit the island every year to be among the pleasant and friendly locals.

### **FUN FACT:**

Though Barbados has been populated since as early as the 1200s by Arawaks and Caribs, it is the Portuguese who first visited the island in 1536, that gave the island its name. One of the first things that the Portuguese travelers recognized about the island was that there were many bearded fig trees on the island and as a result they called it Los Barados which means the "the bearded one".
