Higher Degree Programmes

FACULTY OF MEDICAL SCIENCES

SHAW CENTRE
FOR PAEDIATRIC EXCELLENCE

Department of Pre-Clinical and Health Sciences

Postgraduate Diploma in Paediatric Nursing

in partnership with the **Shaw Centre for Paediatric Excellence**

To prepare nurses with requisite knowledge, skills and competencies to improve health care outcomes in children and provide optimal leadership for child health care service delivery and practice in Barbados.

Postgraduate Diploma in Paediatric Nursing

in partnership with the Shaw Centre for Paediatric Excellence

The goal of the Postgraduate Diploma in Paediatric Nursing is to prepare nurses with requisite knowledge, skills and competencies to improve health care outcomes in children and provide optimal leadership for child health care service delivery and practice in Barbados. The curriculum is centered on paediatric nursing competencies relevant to nursing care both nationally and internationally.

Objectives

Graduates of this programme will apply the best current evidence of knowledge synthesised from critical analysis and theoretical concepts to deliver safe and professional paediatric nursing care. They will utilise critical thinking skills and professional judgement to inform decision-making to assess, plan, intervene and evaluate plans of care for management of paediatric conditions.

To advance the discipline of paediatric nursing, graduates will advocate for children and their families and initiate evidence-based quality improvement activities based on priorities related to nursing practice and child health. The programme will create leaders in paediatric nursing care who will lead based on sound clinical decision-making and critical analysis of issues. They will strengthen their personal and professional values, attitudes and competencies through continuing education, self-reflection and lifelong learning.

Entry Requirements

Candidates should possess the following admission criteria:

- 1) General licensure/registration **AND**
- 2) A total of 2-3 years post RN licensure/registration clinical practice as a registered nurse, preferably working in child health in an approved, recognised agency, institution or organisation; or be a faculty member/educator teaching child health or have previous experience in child health. Nurses must be deployed to a paediatric setting upon graduation, **AND**
- 3) An undergraduate degree **OR**
 1. Approved technical and/or professional qualification(s) awarded by an authorised body and approved by this University, and current employment in a middle level position **OR**
 2. Have, in the opinion of the University, other qualification(s) and experience of special relevance to the programme.

Duration of Programme

One (1) year.

Programme Structure

A blended model of delivery will be used during this programme, including face-to-face and online learning.

The taught courses will be delivered through a mix of lectures and skills laboratory time.

Instruction will include case-based learning, discussion, and in-class group work and activities.

Skills laboratory time will consist of hands-on learning and simulation, and virtual simulation will augment in-person learning.

The practicum will take place in selected public and private agencies, where students will apply course content while providing clinical care in the hospital setting, with support from staff and instructors.

Cost

This is a self-financed programme. Information regarding fees (programme fee, ID card fee & UWI registration fee) for Barbadian and non-national applicants can be found at:

<https://www.cavehill.uwi.edu/studentfinancing/home.aspx>

Please note that fees are subject to change.

The Government of Barbados and the Centre for Global Child Health at The Hospital for Sick Children (SickKids) Toronto launched this partnership in 2020 to positively impact the health and well-being of children in Barbados and the Eastern Caribbean.
