MSc. E-Governance in Developing States

*This programme seeks to analyse and describe the linkages
between government, the business world and civil society
and their use of the internet and other digital devices
to facilitate effective decision making.*

2017-2018

MSc. E-GOVERNANCE IN DEVELOPING STATES

The MSc. e-Governance in Developing States degree programme is about the use of information and communication technology (ICTs) to better deliver services and democracy. The programme also seeks to analyse and describe the linkages between government, the business world and civil society and their use of the internet and other digital devices to facilitate effective decision making.

The programme fundamentally examines the very nature of the transformative changes occurring in public life and how they are redefined, managed and negotiated for citizens and the way they live, communicate and work. The MSc. in eGovernance in Developing States presents the historical, institutional, legal, organizational, functional, policy, and theoretical background that are critical for assisting in the preparation and career-readiness of public administration scholars and practitioners of information and communication technologies (ICTS).

Objectives

Core questions to be addressed by this programme include inter alia:

- what government functions and practices are changed by e-Governance initiatives;
- what are the socio-political implications of e-Governance;
- how e-Governance initiatives are designed and evaluated;
- how public administrators are challenged by such initiatives; and
- what are the consequences for the relationships between public and private institutions as well as citizens.

The programme also has as its objectives:

- an examination of the evolution of information policy in the Caribbean and other developing states such as, India, Brazil, South Africa, Singapore;
- a look at industrial countries such as North America, the United Kingdom, and Australia; and
- the search for best practice.

Entry Requirements

- To qualify for entry applicants should have a Bachelors degree with at least Second Class Honours or equivalent.
- Non-degreed applicants with substantial experience in middle to senior executive managerial capacity would be considered, but would be required to audit the undergraduate courses GOVT 2057 and GOVT 3058: e-Governance for Small Island Developing States I and II.
