

**Socio-economic Monitoring by Caribbean Challenge MPA managers  
Individual and Household Survey for Negril Marine Park (edited for training purposes)**

This survey is being done by the non-governmental organization that manages the Negril Marine Park so as to improve how the area is managed. Any information you give cannot be traced back to you. You will not be personally identified in any reports. So that you know what is going on, you will be invited to a meeting where the information from the whole survey will be presented. After a few years you may be asked questions again to see if things have changed.
